JV Team Again Is Winner; Varsity Loses To Carson

Tahoe Truckee Wolverines were defeated by the Carson City Senators Saturday in the annual homecoming football game on the local field by a score of 13 to 0.

The Senators scored their first touchdown late in the first quarter when Halfback John Felesina received a well-placed pass in the Tahoe Truckee end zone. The extra point attempt was unsuccessful.

The Wolverines rallied strongly in the second quarter but failed to score before the gun sounded, leaving the score 6 to 0 at half time.

Both teams played well in the second half, but it was the Senator's Jack Felover who ran through the Wolverine line and into the end zone for the final touchdown. The extra point attempt was successful and with only a few minutes left in the game, the Wolverines were unable to score and Carson won 13 to 0.

During the intermission, Miss Sandy Fellows was crowned homecoming queen in a brief ceremony and her princesses were Marlene Rodgers, Ruth Poulsen, Kathy Barker and Janice Roth.

A parade from the old elementary school to the high school started the day's activities during which the homecoming dance at the gymnasium was an outstanding feature.

Best player awards announced by Coach Ken Holback went to Joe Straub and Greg Moore on the offensive team and to John Tallant on the defensive crew. Norman Doolittle and Leonard Watts are both out of the lineup for at least two weeks due to hand injuries.

Saturday's game will be at South Tahoe, the JV starting at 11:30 and the varsity tilt at 1:30.

Juniors Win

Under the coaching of Guy Wilson and Bert Greene, the Junior Varsity squad made the day worthwhile for the Wolverines when they scored a resounding 39 to 0 victory over the Carson juniors in a preliminary contest.

The youngsters fought every inch of the way and two touchdowns each were scored by Chuck Spillner, Pat Payton and John Clatterbuck.

Homecoming For School Is Success

By Claus Brendlin

Last Saturday was homecoming day at T. N. T. At the rally on Friday Sandy Fellows was introduced to the student body as homecoming queen, and during the game on Saturday, to the public. Although the game was lost, all the students enjoyed the dance in the evening. The dance was held in the gymnasium of T.N.T., and it lasted from 8 to 11 p. m. The gym was imaginatively decorated and looked very inviting to the students. Cake and punch were served.

The most exciting moment was when Sandy Fellows sat down on the queen's chair, with Ruth Paulsen, Janice Roth, Kathy Barker and Marlene Dodgers in attendance. Joe Straub, the captain of the varsity football team, handed the roses given by the team.

When the dance was over at 11, some volunteers helped to clean up the gymnasium. There were about 150 people at the dance and the Block T and GAA collected $118.

It was a successful homecoming dance at T.N.T.

First Fall Storm Is Recorded As High Wind, Rain Strike

Danger of forest fires, for the time being at least, were eliminated Tuesday when the first major storm of the fall deposited .95 of an inch of rain in 24 hours at the Truckee station of the Tahoe National Forest.

The gusty wind, reaching a velocity of more than 50 miles per hour, brought the storm over the Sierra, toppling some trees but apparently causing no material damage.

Robert Peterson, assistant ranger at the Truckee station, said lookouts were brought down from their stations and will not be returned unless the conditions change. It is planned to hold the 32 Folsom inmates, comprising the "hot shot" crew at Hobart Mills until snow fall, eliminating all fire hazards for this year.

Forecasts call for continued stormy weather with more precipitation during the weekend.

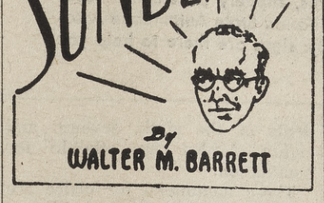
SUNBEAMS



By WALTER M. BARRETT

This being Fire Prevention Week, the National Fire Protection Association has issued the following advise which might well be followed every week of the year:

Schools hold fire drills, theatres and other public places have clearly marked, planned exit arrangements.

But in our homes, where fires killed over 6,000 people last year, too many families are completely unprepared for fire emergencies.

Protect your family by making life-saving escape plans now. Then hold family fire drills regularly, to be sure that everyone—including the children — knows how to act quickly.

Here are pointers to help you plan:

1. Carefully figure out at least two routes to the outside from every room in the house, especially bedrooms. Allow for fire blocking stairway or hall.

2. Remember that closed bedroom doors will hold back flame and smoke, allow extra time for escape.

3. For upper floor escape, use any available porch and garage roofs, ladders, or trees as ways down to safety. Be sure exit windows work easily and especially that they are low and large enough to get through.

4. Pick an outside assembly point where the family will meet, and be sure everyone understands the rule "once out — stay out." Plane for fire department notification, by street box or neighbor's phone, as quickly as the house is clear of people.

County Gets Share Of Forest Income

Nevada County will receive $35,-683.04 as its share of national forest receipts for the fiscal year ended June 30, according to Regional Forester Charles A. Connaughton. This is the county's share of gross payments to the U. S. treasury from the sale of national forest timber, fees for grazing permits and land use and charges made for recreation areas.

Of the total, $35,670.46 comes from the Tahoe National Forest. and $12.58 from the Toiyabe.

Placer County will receive a total of $73,355.53, with $14,911.77 from the Eldorado and $58,443.76 fro mthe Tahoe National Forest.

Sierra County gets a total of $88,466.94 from the Tahoe, Plumas and Toiyabe forests.

Twenty-five per cent of the receipts collected by each national forest is apportioned to the counties according to the amount of national land in each county. These funds, by law, are to be spent by the counties on roads and schools.

Connaughton pointed out that the money returned to the counties is only one of the benefits derived from national forest multiple use management. Payrolls from forest related businesses bring revenue into forested counties. National forest recreation areas attract many people and other benefits are gained.

Funds For Martis Reservoir Given Official Approval

WASHINGTON — Authorization of $2,385,000 for additional flood control work on the Truckee River and its tributaries was virtually assured last Saturday when the senate passed the rivers and harbors flood control authorization act and sent the measure to conference according to Sen. Alan Bible.

Bible said the corps of engineers had included a recommendation for a 15,000 acre-foot reservoir for flood control at the Martis Creek site near Truckee, together with channel improvements in Reno. Non-federal costs are estimated at $75,000.

Existing flood control improvements consist of channel clearing and snagging through the city of Reno upstream to the California-Nevada state line and downstream on the Truckee through the Indian reservation.

Other improvements for which funds have been appropriated include enlargement of the outlet channel at Lake Tahoe.

Senator Bible stated he was advised by the corps of engineers some modifications with relocations of existing structures would be necessary on the Truckee through Reno to provide a channel capacity of 14,000 cubic feet per second, and local interests would provide maintenance of the channel capacity as far as the California line.

The project would not provide protection against maximum floods but would greatly lessen flood losses in the area.

KUCHEL IS PRAISED FOR FIRE PROGRAM

Senator Thomas H. Kuchel was applauded in a telegram today from Governor Edmund G. Brown for a fight he is conducting in Washington to protect California from forest fires.

An item of $200,000 in the U. S. Weather Bureau budget for fire weather forecasting, eliminated by the house of representatives, was restored by the senate at Kuchel's urging. He is a member of the senate appropriations committee.

The governor told Kuchel he appreciated his efforts and said, "California is vitally interested in this program due to our critical forest fire weather problems."

The weather agency uses the money to employ specialists who predict humidity, wind velocity and other conditions on a twice-a-day basis for the state and federal forestry departments. In time of fire, crews are sent to the scene for hourly measurements to assist in battling the blaze.

Kuchel said he will "exert every effort to have the house of representatives approve my senate amendment for this highly necessary weather service."

San Francisco is served by four Class I railroads, which operate more than 27,000 miles of line.

The best "friend" the highway traveler has is the road sign that warns him of a dangerous curve ahead or some other highway danger. Such signs are the result of painstaking study by highway engineers. Their purpose is to alert the driver to such hazards as blind curves, intersecting roads, slippery pavement. Never ignore such a sign, warns the California State Automobile Association. Remember, highway traffic signs are there to help you stay alive.

COUNTY GAINS FROM HIGHWAY USER TAX

SACRAMENTO — (CNS) — Nevada County received $27,739 as its share of the September distribution of highway users tax, State Controller Alan Cranston announced today.

The apportionment during September for the state was $33,141,516, up 5.3 per cent from a year ago.

Of the total, $20,616,873 went to the state highway fund for expenditure on state highways; $8,004,292 was apportioned to counties; and $3,114,346 went to the cities. The state's general fund received $1,406,005.

The apportionment included $29,859,323 from the gasoline tax, $1,875,403 from the diesel fuel tax, $1,406,005 by transfer from the motor vehicle transportation fund, and $785 from miscellaneous sources.

WINDSHIELDS MUST BE FREE OF STICKERS

How many times is this familiar statement heard after an accident?

"Officer, I just didn't seem him."

And sometimes the reason a driver didn't see the other car or the pedestrian is that his vision was obscured by a sign or sticker illegally placed on a window, California Highway Patrol Commissioner Bradford M. Crittenden said.

"The law provides that no card, sign, sticker or non-transparent material may be placed on the windows of a vehicle except in a seven-inch square on the windshield, on the lower corner farthest from the driver; or upon the side windows to the rear of the driver so that his clear view of traffic is not obstructed.

"It is also a violation to drive with any object or material placed in a position where it obstructs or reduces the driver's view through the windshield. This would include hanging ornaments and items attached to the dashboard which reduce the driver's vision," the commissioner said.

LAW COMPLIANCE WILL AVOID ARREST

The average motorist does not like to get into an accident or to receive a ticket, in the opinion of California Highway Patrol Commissioner Bradford M. Crittenden, but "when you violate a traffic law you become susceptible to both."

"Drivers can effectively 'kill two birds with one stone' by complying with the rules of the road set forth in the vehicle code," Crittenden continued. "They not only reduce the chances of having an accident, they also eliminate the possibility of receiving a citation.

"The wisdom of this course is borne out by statistics. Last year, more than 8 per cent of the 108,999 fatal and injury accidents in California involved a traffic violation. During the same year, the California Highway Patrol issued citations to more than one million drivers.

"Motorists could reduce both of these figures by the single and simple act of driving within the law."

The first democratic national committee was formed at Baltimore in 1848.

Happy birthday to Canute Larsen, son of Harold and Arlene Larsen of Incline Village, who celebrated on September 29 his seventh. Friends who attended the festivities were Mark Price, Marla Bracey, Russell Potts, Anne Gorrindo, Debbie Sipes, David Ferrari, Rickey Springer, Steve Brehler, Steve Phalen of Reno, Joel enzer, Larry Crowe, Chrissy Gurney, Gage Smith and Joey Cernusak.

A football motif was carried out in the decor, games entertained the guests and lunch with traditional ice cream and birthday cake completed the party.

Treasure Den Rummage Sale will be held October 19 and 20 at Tahoe City in the Hendrickson Building and sponsored by the Emblem Club with Linda Austin, chairman. The sale will be from 10 a. m. to 5 p. m. on Friday and 10 a. m. to 5:30 p. m. on Saturday. Anyone wishing to contribute to the sale may do so by phoning Alice Hall at LI 6-2609.

Fred and Frances Rockholm have moved to Gardnerville from Kings Beach. Busy people there—operating a frosty and a laundromat.

Jack and Georgette Klinge and children, Kathy, Lynn and Gail, of Pleasanton were weekend guests of Jack's mother and husband, Lloyd and Alice Hall at Kings Beach.

Fire Belles of North Lake Tahoe will be presented at their next meeting with a fire engine bell that has an interesting history. The bell originally came from an old fire engine in Sacramento that came into the possession of Steve Riolo. Steve presented the bell to Fire Chief Joe Fulton for the Fire Belles. After engraving, and presentation to the Fire Belles, it will be used during their meetings.

Steve Riolo is a well known summerite, having operated his restaurant here for many years. Spends his winters in Sacramento but must be a Tahoe-ite at heart.

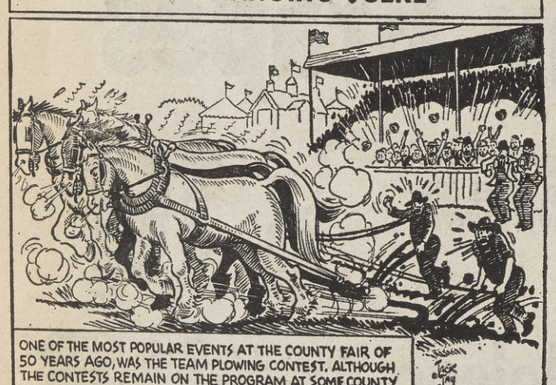
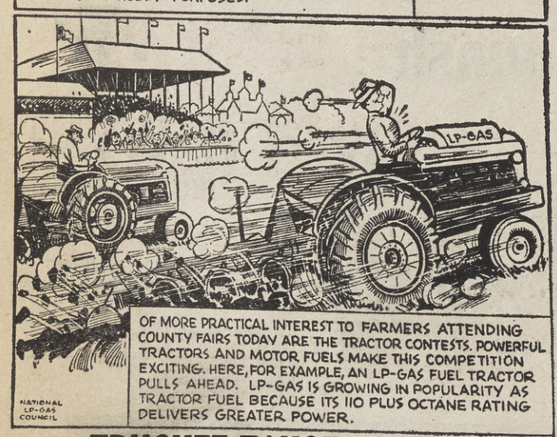
THE CHANGING SCENE



ONE OF THE MOST POPULAR EVENTS AT THE COUNTY FAIR OF 50 YEARS AGO, WAS THE TEAM PLOWING CONTEST. ALTHOUGH THE CONTESTS REMAIN ON THE PROGRAM AT SOME COUNTY FAIRS TODAY, THE WORK HORSES ARE KEPT FOR SENTIMENTAL REASONS OR "HOBBY" PURPOSES.



OF MORE PRACTICAL INTEREST TO FARMERS ATTENDING COUNTY FAIRS TODAY ARE THE TRACTOR CONTESTS. POWERFUL TRACTORS AND MOTOR FUELS MAKE THIS COMPETITION EXCITING. HERE, FOR EXAMPLE, AN LP-GAS FUEL TRACTOR PULLS AHEAD. LP-GAS IS GROWING IN POPULARITY AS TRACTOR FUEL BECAUSE ITS 110 PLUS OCTANE RATING DELIVERS GREATER POWER.

Letter to the Editor

Sometimes it is a good thing for good citizens to take the time to measure their government officials and weigh the spending of our tax dollars in Nevada County.

Is Truckee-Donner getting a fair share from officials in time and money spent? Inaction, delaying tactics by the board of supervisors in granting building permits just before the snows greatly affects the building and prosperity of our area.

Our chamber of commerce fights for recognition and the county red tape seems to discourage it. Thanks to our particular snow problem, irresponsible delays can affect the construction of buildings for as much as a year. How can they so blithely postpone action without consideration of the hardship imposed on the taxpayers?

RETAIL SALES SHOW GAIN FOR COUNTY

SACRAMENTO — (CNS) — An all-time record sales high for new car dealers during the April-June quarter of 1962 boosted California's retail sales to $6,455,567,000, up nearly 10 per cent from the second-quarter record set in 1961.

Nevada County, sharing in the retail sales increase, reported taxable transactions of $6,567,000 for the quarter. This produced $197,010 in the state's 3 per cent sales tax, accounting for .10 per cent of the state total. It represented a gain of 2.3 per cent from the second quarter of 1961.

BILLIONS OF GALLONS OF GAS CONSUMED

SACRAMENTO—(CNS) — Every automobile in California could have made a tour of the 48 contiguous states in the country on gasoline which was consumed in California during the fiscal year ended last June 30, the state board of equalization reported.

During the year 6.3 billion gallons of fuel were consumed on Cailfornia highways. If mileage of 15 miles per gallon was attained, this would have amounted to more than a trillion miles of travel.

The vehicle travel produced by this consumption of gasoline would have amounted to 20 round trips to Venus, at its nearest point to the earth, a trip a U. S. space ship now is making.

The state treasury shared in this gasoline consumption to the tune of $359 million from the state's six-cent gasoline tax.

The board said gas tax revenues for the year were up $14 million from the previous fiscal year, up 3.7 per cent, and more than double the total for 10 years ago.

DRUG RACKET HIT IN GOVERNOR'S PLANS

SACRAMENTO—(CNS) — Governor Edmund G. Brown today laid down a three-part program to break up the dangerous drug racket in California, as well as changes in federal regulations to stop the importing of narcotics and dangerous drugs into California.

Brown's statement was made to the White House conference on narcotic and drug abuse in Washington, D. C., but was released also in Sacramento.

The governor reported that heroin traffic has "leveled off" in California as the result of new legislation approved during his administration but that the dangerous drug traffic is increasing.

"The peddlers are turning to a new line of merchandise which is less dangerous for them but every bit as deadly for their customers as the old line," Brown said. "This is an escape-hatch which I intend to close as quickly as possible. I believe we must be as severe on those who spread misery through dangerous drugs as we now are with those who sell heroin."

Brown said he would attempt to stem the upswing in the dangerous drug business by:

1. Asking the legislature for tougher penalties for dangerous drug violations.
2. Asking the legislature to expand programs of treatment and commitment to include persons addicted to dangerous drugs.
3. Urging the legislature to include programs of treatment and commitment for persons under 18 years of age.

On the federal level, Brown called for strict controls on production, inventory, distribution, manufacture and sales of dangerous drugs.

POKE BONNET REVIVED—Secretaries at the U. S. Department of Interior have revitalized a 100-year old cotton fashion to commemorate the centennial of the passage of the Homestead Act. The original "poke" bonnet (left) was the style in 1862 for courageous women who wagoned west but didn't want the sun to freckle their faces. The New Frontier version—a perky bonnet of green plaid polished cotton—sports a modified brim to let the sun shine on its tan-conscious designer.

JUVENILE CRIMES IN STATE LEVELING OFF

SACRAMENTO—(CNS) — There are indications the rise in juvenile delinquency in California may be leveling off, the state department of youth authority reported, on the basis of statistics for the first eight months of 1962.

Heman G. Stark, director, said first referrals by the juvenile courts to the CYA in the first eight months of this year totaled 2,589, as compared to 2,554 in the same period of 1961—an increase of only 1.4 per cent. If the population increase is taken into account, the rate of first referrals actually dropped from 167 per 100,000 population a year ago to 161 this year.

"This is especially significant in view of reports of continued increases in delinquency in many other states and in foreign countries," Stark said. "These figures are encouraging to those who are dealing with this problem.

Man's dominion over everything that would alienate him from God, good, will be emphasized Sunday at Christian Science services.

Paul's healing ministry will be featured in the Bible readings. The lesson-sermon entitled "Are Sin, Disease and Death Real?" will include Paul's word to the Romans: "For I am persuaded, that neither death, nor life, nor angels, nor principalities, nor powers, nor things present, nor things to come, nor height, nor depth, nor any other creature, shall be able to separate us from the love of God, which is in the Christ Jesus our Lord."

This correlative citation will be among those read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy (p. 303): "When the evidence before the material senses yielded to spiritual sense, the apostle declared that nothing could alienate him from God, from the sweet sense and presence of life and truth."

TONINI HIT BY WORLD SERIES FOUL BALL

Elden Tonini, one of more than 40,000 baseball fans at the second game of the World Series at San Francisco had an opportunity to get a souvenir baseball which fouled, hitting his side, but was lost to him in the wild scramble, as the local man recovered from his surprise.

He said the foul ball was sent by Matty Alou and Phil Vahey, sitting beside Tonini witnessed the play.

Other local people attending the game at San Francisco last week included the Charles Kay family who were there Monday. Mr. and Mrs. Ange Besio were also in attendance at the opening game.

HEARING IS SLATED ON SOUTH LAKE ROAD

California Division of Highways will conduct a public hearing October 23 at Al Tahoe to present studies for the relocation of a part of the previously adopted route of the future U. S. 50 freeway in the south Lake Tahoe area between U. S. 50 and Tallac Creek.

The hearing will be held in the Al Tahoe Amercian Legion Hall on U. S. 50 beginning at 10 a. m., according to state highway officials at the Marysville district office.

The relocation of a 4.7-mile section, adjacent to the Lake Tahoe Airport, of the nine-mile Meyers-Stateline freeway on U. S. 50 adopted by the California Highway Commission in 1959, was requested by the El Dorado county board of supervisors in order to clear a proposed 13,000-foot runway.

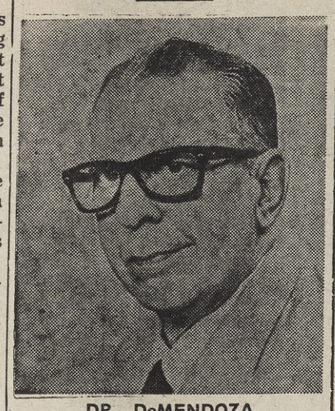
CUBAN CITIZEN TO BE EXECUTIVE SPEAKER



DR. DeMENDOZA

Dr. Nicolas G. deMendoza, a native-born Cuban citizen whose family has a long and proud heritage but who met with violent disfavor with Fidel Castro and had to flee from the island to save his life and that of his wife and three children, will be the guest speaker to address members of the Reno Executives Club at their meeting Tuesday evening, October 16 at Mathieson Hall, it was announced today by Dr. Garold D. Holstine, president of the club.

The Mendoza family was one of Cuba's most prominent. It was none other than the speaker's grandfather, Don Antonio Gonzales de Mendoza, who was the first chief justice of the supreme court of Cuba in 1902 following its liberation from Spain.

The family is now living in St. Louis, Missouri.

PLACER GROUP WILL STUDY RECREATION

KINGS BEACH—The recreation potential of Lake Tahoe and Placer County's participation in this economic field will be the subject of discussions at a regular meeting of the Placer County Recreation Commission on October 16 at the Tahoe City Community Center at 8 p. m.

Fred Schultz, Lake Tahoe Sierra Chamber of Commerce manager, will appear before the commission in an effort to gain county participation in a chamber program to clean up the beautiful sandy beaches here at Lake Tahoe.

Schultz stated "this program is not in any way aimed toward county control of our beaches. It would simply be a service rendered to the area in return for the tax dollars invested by property owners here."

The inland fishing access built by Placer County at Lake Forest, will be reviewed by the commission. In addition recreation policies to be recommended to the board of supervisors will also be presented.

NEW MANAGER FOR EMPLOYMENT OFFICE

Robert E. Roesner, formerly with the Sacramento office, has been transferred to Auburn where he heads the local district of the department of employment, replacing Ralph Pyle, whose transfer to southern California became effective recently.

Roesner was here Monday with other department employes processing local unemployment claims. He is a native and long time resident of Grass Valley.

The new manager reported that the employment situation here is better than it was a year ago at the same time.

At the same time from San Francisco, John F. Henning, director of industrial relations, reported that more Californians were working in September than in any previous month and that unemployment was at the lowest ebb in almost three years. Civilian employment reached 6.541,000 last month, a gain of 238,000 jobs from September, 1961.

SIERRA ENROLLMENT SHOWS ANNUAL GAIN

Sierra College's official enrollment this fall of full-time day students was 1,110 compared to 1,033 peak enrollment one year ago, 860 the previous year and 680 three years ago.

Statewide, junior college enrollment this year is estimated at 180,000, as compared to 112,636 last year.

State department of education figures back in 1953 projected junior college enrollment figures for an estimate of attendance for 1961 at somewhere between 81,500 and 88,700. The actual attendance of 112,636 indicates that all estimates of enrollment in California colleges has been, if anything, too conservative, officials admitted.

ACTION DELAYED ON SALES TAX DEMAND

NEVADA CITY — The county supervisors have deferred action on the requests of Grass Valley and Nevada City to increase their share of the local sales tax to 80 per cent. The tax has been split 70 per cent to the cities and 30 per cent to Nevada County for two years.

The supervisors can reject the request, but the cities in turn could refuse to share any of the tax collected by their merchants.

BE CAREFUL WITH FIRE

Life Expectancy Continues Up

The life expectancy of a man today is 70.3 years as against 47.3 years in 1900. Improved medical techniques and the use of "miracle" drugs are largely responsible for this increased longevity.

One of the ironies of the drug-price controversy is the charge that the cost of medication is beyond the reach of oldsters who, a short half-century ago, would not have lived to enjoy their sunset years.

Yet statistics show that drug prices more often decline—seldom go up. Few assail those responsible for the cost of food, clothing, and shelter. The only villains in this drama are drugs and the men who manufacture them.

Tarzan

by Edgar Rice Burroughs®

IF WE GO BACK WITH THESE WOO-MOOS, TARZAN, IT WILL BE THE END FOR ME - AND MAYBE *YOU!*

YOU *MUST* DIE, CAL COLIN, FOR HAVING BROUGHT SUCH ANGUISH TO OUR VILLAGE WITH YOUR FLYING MACHINE!

YOU TRIED TO BE A GOOD SAMARITAN, TARZAN - INSTEAD YOU GOT INVOLVED IN MY AFFAIRS...

AS IT TURNS OUT, CAL, I *AM* INVOLVED... IF I HAD NOT BROUGHT MOVIE-MAKERS TO THE WOO-MOOS' FORTRESS - NO ONE WOULD HAVE KNOWN OF THEIR TREMENDOUS STOREHOUSE OF GOLD!

WE COULD PROBABLY EFFECT AN ESCAPE FROM OUR GUARDS - BUT I WOULD RATHER GO BACK AND TRY TO MAKE AMENDS!

SO WOULD I - IF THAT IS POSSIB'LE!

JOHN CELARDO

MAYBE IT *IS* POSSIBLE! DO YOU THINK THOSE TWO THIEVES, KNOWING HOW MUCH MORE GOLD IS AT THE FORTRESS, CAN RESIST RETURNING FOR SECONDS?..

GEE! I NEVER THOUGHT OF THAT... BUT WHAT CHANCE WOULD WE HAVE AGAINST SUB-MACHINE GUNS?

I THINK I HAVE AN IDEA... WE WILL NEED THE COOPERATION OF HIGH CHIEFTESS D'AMA!

I WONDER IF SHE'LL GIVE *US* SECONDS - ON OUR *LIFE?!..*

...IF NOT, NKIMA, HERE, IS OUR ACE-IN-THE-HOLE!

THE SIMIAN RECEIVES SOME INSTRUCTIONS - THEN QUICKLY LEAPS INTO THE TREES...

YOU TALKED TO THAT MONKEY?.. AND HE'S GOING TO *HELP* US?..

ONLY IF WE *NEED* IT! IN THE JUNGLE YOU LEARN TO HAVE ALTERNATIVES... AFTER ALL - THE BEST-LAID PLANS....

NOW LET'S GET SOME REST--WE MAY NEED *THAT,* TOO!
